MORE LOCAL MILITARY PLANS

HERE TO START MARINE POST

COL. DENNY, U. S. M. C., ARRIVES TO DETERMINE PLANS FOR AMERICA'S GREATEST MARINE CORPS QUARTERS AT PEARL HARBOR NAVAL STATION AND WILL ALSO MAKE FIRST MOVE FOR PERMANENT HONOLULU BARRACKS—ARRIVES ON KOREA.

Colonel Frank L. Denny, United States Marine Corps, and Mrs. Denny, were passengers for Honolulu in the Pacific Mail S. S. Korea from San Francisco this morning, going to the Young Hotel where the Colonel will make his headquarters while in this city on the important mission of establishing Marine Corps posts at Pearl Harbor and on a site near Honolulu harbor.

Colonel and Mrs. Denny left Washington on October 9 for the Pacific coast and Honolulu. They expect to be in this city between six weeks and two months, during which period the Colonel will complete all arrangements in regard to sites and plans for the big barracks and quarters for Marines at Pearl harbor, soon to be one of the most important naval bases in the world, and for the headquarters in Honolulu, where Marines will also be stationed.

Miss Denny, their daughter, during the absence of her parents in the Paradise of the Pacific is stopping with her aunt in Washington, at the Marlborough.

The Marine posts on this island are to be the most important of all United States Marine posts, Philippine stations probably ranking next and in this strategic position in the Pacific it is expected that duties of the utmost importance will be delegated to the Marine Corps. Eventually, the Pearl Harbor quarters will accommodate several thousand Marines and it will be

the biggest outpost of Marines in the United States. Several hundred will be constantly stationed at Honolulu. In an emergency Marines would be tented at Pearl Harbor in addition to the numbers housed in permanent barracks. The Pearl Harbor scheme will be such that the permanent quarters erected will be easily capable of enlargement.

A novel and ingenious plan for barracks and quarters in tropical and outlying army posts is under consideration. The idea is to construct these buildings to be made of concrete, three stories high, with the colonel's and lieutenant colonel's quarters at the corners, the field officers' at the center of the principal facades and the smaller apartments between, with the bachelor's quarters adjoining the barracks. The general depth of the structure is proposed to be thirty feet and the dimensions of the principal quarters is thirty by forty feet; those of the colonel and lieutenant colonel, however, being 56 by 65 feet on the outer face, in order to give size enough to secure adequate light and air on the inner side of the quadrangle. The court within the officers' quarters is to be 293 feet by 523 feet. The rear side of the quadrangle is allotted to quarters for the men, and an extension of the building enclosing another quadrangle to the rear affords sufficient barracks and storerooms. The plan is wholly tentative at present, and, if approved, will be first tried probably in Hawaii.

Sheba's Stabber In Jury's Hands

The jury in the case of Mori, the Japanese charged with the attempted assassination of Editor Sheba of the Hawaii Shimpo, is still out, at 3:15 this afternoon, standing eleven to one for conviction.

After being out more than an hour without rendering a verdict, the Mori jury was permitted by Judge De Bolt to go to a cafe for luncheon.

At a quarter after eleven this morning the jury trying Tomikichi Mori for attempt to murder S. Sheba retired to consider their verdict.

They had been addressed by M. F. Prosser for the Territory, E. A. Douthitt for the defendant and City and County Attorney J. W. Cathcart for the Territory in the order stated. Instructions of the court took Judge De Bolt half an hour to read, and at their conclusion J. Lightfoot noted exceptions to many of them by numbers.

Mori evinced the same callous indifference to his serious position which he had shown throughout the trial, excepting for the earnestness he displayed on the witness stand whilst developing his plea of being assaulted under sudden provocation of insult. As the jury were retiring Mori grinned broadly at them over his shoulder as if the proceedings were a comedy.

Mr. Cathcart in concluding his address laid stress on the evidence of the witnesses who were present at the interviews with Mori directly after he had stabbed Sheba, to the effect that he never once mentioned any insulting language or demeanor on the part of Editor Sheba as having provoked him to commit the deed. Comment was made on Mori's statement on the stand that he did not understand the question put to him after arrest, in answering which he admitted that his intention was to "get rid of Sheba." Mr. Cathcart maintained that having received an exclusively English education since he was twelve years of age, attending both the Royal and the High schools here, Mori knew perfectly the meaning of the question mentioned. It was safe to say he understood English better than he did Japanese. Mori was calm and collected when he made his statements immediately after his arrest. He was quite cool the instant after he had struck Sheba three times in the head and neck with the knife, as shown by his request to those who seized him, "Do not handle me

HAWAII'S COUNTY ATTORNEY DEAD

(Special Wireless to The Star.)

HILO, October 27.—County Attorney Williams died in this city at half after seven o'clock last evening, Tuesday.

FIRST AMERICAN WOMAN TO FLY

(Special Cable to The Star by the United Press.)

WASHINGTON, D. C., October 27.—In an exhibition test flight near this city today Wilbur Wright, the famous aeronautist, in the presence of thousands of excited spectators, many of whom came from other cities especially to witness the spectacle, carried Mrs. Ralph Vandeman with him in a brief but successful trip in his air machine.

The plucky woman, who is the wife of the Army captain of the name mentioned, of California, is the first American woman to undertake such a flight. She was four minutes in the air with Wright.

CENSUS MAN HAS ARRIVED

DR. VICTOR S. CLARK COMES FROM WASHINGTON TO CONDUCT DECENNIAL CENSUS AND QUINQUENNIAL LABOR INVESTIGATION IN TERRITORY OF HAWAII—WILL APPOINT HIS OWN SUBORDINATES—TO REMAIN SIX MONTHS.

In the steamship Korea arriving this morning Dr. Victor S. Clark, the census commissioner, arrived both to take the 1910 census of the Territory of Hawaii and to conduct the investigation of labor conditions here which is made every five years. Dr. Clark was here about five years ago, where he investigated and reported on labor conditions for the bureau of labor of the Department of Commerce and Labor. So far three volumes of reports on labor in Hawaii have been issued.

From his previous visit Dr. Clark is somewhat familiar with local conditions. He will probably remain on this occasion until the middle of next year. For the census work he will appoint all the enumerators and clerks required. Dr. Clark called on Governor Frear this morning. His headquarters will be in the Capitol. Superintendent of Public Works Marston Campbell will set up offices for him in the veranda rooms behind the Senate chamber which he will occupy after the special session of the Legislature which will open next Tuesday and last probably from ten to thirty days.

Governor Frear stated this afternoon that, besides some new features in the coming decennial census for the nation at large, there would probably be some special branches of information covered in the census of this Territory, as in the cases of

Alaska and Porto Rico. It will be a more complete census than last one.

Regarding the labor investigation, the Governor stated that it would not include any collecting of local opinions. It will be a scientific investigation of facts relating to labor in this Territory.

Dr. Victor Selden Clark is a man of scholastic attainments and much experience in public affairs. A native of New York State he was educated in New York and Minneapolis, graduating at the University of Michigan with the degree of Litt. B. in 1890. He became an honorary fellow of Chicago University and, after studying at Göttingen and Bernese universities, a fellow of Columbia University from which he received the degree of Ph. D. After being a high school principal and superintendent in Minnesota 1893-97, he was appointed superintendent of public instruction and president of the insular board of education of Porto Rico under the military government. Since 1902 he has been engaged in investigating foreign and insular labor conditions for the United States Government. He is a collaborator in charge of the divisions of manufactures and economic history of the Carnegie Institution. As editor and author he is credited with many works, including reports on labor conditions in Cuba, Hawaii (1903, 1905), New Zealand, Australia, the Philippines and Java.

PORTUGUESE ARE COMING

Cabled advices to the Board of Immigration are to the effect that the steamer Swanley left Funchal yesterday with Portuguese immigrants.

roughly." It was of himself thus he was thinking when Sheba's life blood was streaming from the wounds he had inflicted. He had no thought for Sheba's wife and children who might be widowed and orphaned as the result of his blows, so fierce that the good steel broke with the impact of one of them. Counsel insisted that the idea of insult never occurred to the defendant until he came to the witness stand and made his appeal to the jury. "Do not handle me roughly." With this quotation

grants for Hawaii, and is expected to arrive here on December 10.

A. J. Campbell, the special commissioner, is on his way back to London to await further instructions.

from the defendant's mouth Mr. Cathcart concluded his address.

THREE DAYS OF SPECIALS. Immense savings on special items at Sachs' Dry Goods Co. for Monday, Tuesday and Wednesday. The goods are priced far below the regular cost. This furnishes an opportunity for alert buyers.

Fine Job Printing, Star Office.

OFFICERS HERE GIVEN ORDERS

(Associated Press Cable to The Star.)

SAN FRANCISCO, October 27.—Colonel Schuyler, Commander of the Fifth Cavalry at Leliehua, Oahu, and Captain Castner, Construction Quartermaster, Leliehua Camp, Fifth Cavalry, and Captain Day, Quartermaster, Leliehua, Oahu, have been ordered to undertake the plans of a military reservation for the cavalry in Honolulu.

CONDOLENCES TO JAPANESE

(Associated Press Cable to The Star.)

WASHINGTON, D. C., October 27.—United States Minister to Japan O'Brien has been instructed to officially condole with the Japanese government for the assassination of Prince Ito.

TOKIO, October 27.—The State funeral of the late assassinated Prince Ito will be held in this city on Thursday, November 4.

The late Prince Ito has been given the posthumous honor of advancement in rank to the first grade at court.

NEW YORK, October 27.—The National Conservation Association, with Ex-President Elliot of Harvard University, as its head, has been formed to promote legislation.

WASHINGTON, D. C., October 27.—Espinoza, Minister from Nicaragua, has resigned.

KOREANS WHO PRAISED ASSASSIN ARE ANARCHISTS

THOSE WHO TOOK PART IN PROCLAMATION COMMENDING THE MURDERER OF PRINCE ITO MAY BE LIABLE TO DEPORTATION—WERE SUSPECTED IN CONNECTION WITH THE MURDER OF MINISTER STEVENS.

It is possible that the Koreans who are responsible for the circular commending the assassination of Prince Ito may be subjected to deportation proceedings in the federal courts here, on the ground that they are anarchists.

Any alien in American territory who has not resided in the country more than three years, is subject to deportation if proved to be an anarchist.

The question which may be raised, is whether adoption of such a resolution, or circular, as the one endorsing the assassination of Ito, is evidence of anarchism. In the opinion of the best lawyers, endorsement of such a crime is itself proof of anarchism, and any Korean proved to have endorsed it is an anarchist and liable to be deported if his length of stay in the country is within the three year limit.

The local Koreans who adopted the sensational Ito circular are the same crowd as showed satisfaction at the murder of American Minister Stevens,

in San Francisco. In fact they were strongly suspected of complicity in that crime, and an investigation was made with the expectation of possibly connecting some of the local men with it.

Have your typewriter, cash registers and adding machines repaired by the Office Supply Co. They have a complete repair department for this work.

FOR WHOOPING COUGH. Give Chamberlain's Cough Remedy. It will keep the cough loose, expectation easy and render the fits of coughing less frequent and less severe. For sale by all dealers, Benson Smith & Co., agents for Hawaii.

SAVE Doctor's Bill

Where do you have your shoes repaired? Did you ever stop to think that there is a difference in the price of leather that goes into the repair of shoes.

We cannot afford to jeopardize our reputation by using inferior materials. We pay a higher price for our sole leather than any other repair place in town and we have two of the best workmen to put that good material in the proper place in the proper way.

Rainy weather is coming, so just look up those shoes with the thin and worn outsoles and bring them in to us to be fixed up.
